Mapping a shared drive on a personal computer

Search "This PC" in the bottom left hand corner.

In the window that pops up click on "Map network drive"

💻 💆 📕 🗢 lee_t on NOS207-02976						
File Computer	/iew					
Properties Open Rename	Access Map network Add a network media + drive + Add a network location	Open System properties Settings Thanage				
Location	Network	System				
$\leftrightarrow \rightarrow \checkmark \uparrow \mathbb{R}$ > lee_t on NOS207-02976						
📌 Quick access	^ V Folders (7)					
💻 Desktop 🛛 🖈 🖊 Downloads 🖈	3D Objects	Desktop				
🔮 Documents 🔹 🖈 🌰 OneDrive - Cali 🖈	Downloads	Music				

In the box that pops up, pick a drive letter. Typically we use T but as I'm already using that I chose S The address for TeamDrive is \\vfs1\TeamDrive\$

Make sure you have "connect using different credentials" checked.

÷	🐔 Map Ne	etwork Drive	Â
	What ne	etwork folder would you like to map?	
	Drive: Folder:	S:	
		Example: \\server\share Reconnect at sign-in Connect using different credentials Connect to a Web site that you can use to store your documents and pictures.	
		Finish Cance	I

Make sure when you are putting in your credentials, you put calupa\username

Windows Security		×			
Enter network credentials					
Enter your credentials to connect to: vfs1					
calupa\lee_t					
Password					
Domain: calupa					
Remember my credentials					
ОК	Cancel				

After you click okay the Team Drive will show up under "Network Locations" under "This PC"
